

## INDEX TO ASTJ VOLUME 47

Author	Feature Article	Vol/Issue	Page No.
Ainley, M and Rodrigues, S and Smith, A	Video clips and Animation in Chemistry CD-ROMS: Student Interest and Preference	47(2)	9
Bowden, J	Galileo's Patrons	47(1)	41
Byrne, T	Tilt, Rock and Roll: Understanding the day/night cycle	47(1)	12
Colvill, M and Pattie, I	A History of ASTA Awards and Projects	47(3)	41
Dawson, V	Addressing Controversial Issues in Secondary School Science	47(4)	38
Hackling, MW	The State of Science in Australian Secondary Schools	47(4)	6
Goodrum, D and Rennie, LJ			
Hafner, R	CONASTA History	47(3)	27
Lucas, KB	ASTA: The First Fifty Years	47(3)	8
Michna, P	Digital False Colour Image Processing in the Classroom	47(1)	32
Ninnes, P	Writing multicultural science textbooks: perspectives, problems, possibilities and power	47(4)	18
Salleh, A	Science in the media: the good, the bad and the ugly	47(4)	28
Simpson, G	Learner characteristics, learning environments and constructivist epistemologies	47(2)	17
Skamp, K	Do Resources Reflect the Nature of Science Teaching Over the Years?	47(3)	33
Smith, C	Security Science as an Applied Science?	47(2)	32
Trumper, R	Assessing Students' Basic Astronomy Conceptions from Junior High School through University	47(1)	21
Yan Yip, D	Developing a better understanding of the process of fat absorption	47(2)	25
Youl, J	Scientists and Engineers In Schools: Making Science More Real	47(1)	35

**Science Notes**

De Berg, K	Difficulties in Interpreting Alkali Metal Trends at the Senior Chemistry level	47(4)	47
Gipps, J	Cola Chemistry and Data Logging	47(1)	57
Kovac, K	Bring Plant Science to Life!	47(2)	42
Read, T and Rose, D	The Kormilda Science Project – The Earth Sciences With an Australian indigenous perspective	47(2)	44
Russell, D	School Science Shows: colour, light and noise	47(2)	46

**The Changing Face of Science**

	2001 Eureka Awards – Science at the Shine Dome – New Academy Fellows	47(2)	37
	What the Australian Academy of Science offers secondary teachers	47(4)	45
